ABOUT
HASSAN ALLAM PROPERTIES

Hassan Allam Properties is one of the pioneering real estate developers in Egypt. The company’s story started more than 80 years ago. Since then, it has been involved in several successful real estate endeavors and has expanded its presence in the Middle East.

Hassan Allam Properties plays a significant role in promoting the growth of the national economy and the reform of the state's economic agenda. It has built several hospitals, hotels, civil and tourist buildings, water networks, roads, airports, power and sanitation stations, and other amenities.

Hassan Allam Owner & History

Beginning as a reputable family-owned company in 1936, **Hassan Mohamed Allam** began his career as a general contractor and saw several changes over the years. He founded Hassan Allam Sons in 1972 under the name Hassan Allam Sons for Construction (HAC) following his nationalization in 1961.

Contributing to Egypt's economic transformation in the late 1990s, the company hired a new group of highly skilled engineers and specialists in 1996. The company's ISO accreditation was granted in 2015, and it most recently won the First Class Merit Medal for the successful completion of the Al Merghany Bridge.

ABOUT
THE PROJECT

Haptown Park 227 is one of the brilliant phases inside Haptown Mostakbal City Compound. The project was developed by the well-known real estate guru, Hassan Allam Properties (HAP) in a smart spot in the city.

This phase was designed with an outlook for the residents' comfort and luxury. It enjoys unobstructed access to the main project's facilities, as well as having its own high-end amenities.

Park 227 in Haptown Compound features a wide selection of high-end units. It also boasts homes that enjoy scenic views. Moreover, the project's location is one of the most unique selling points it offers, as it is close to all the major attractions and easily accessible via main highways.

Haptown Park 227 Location

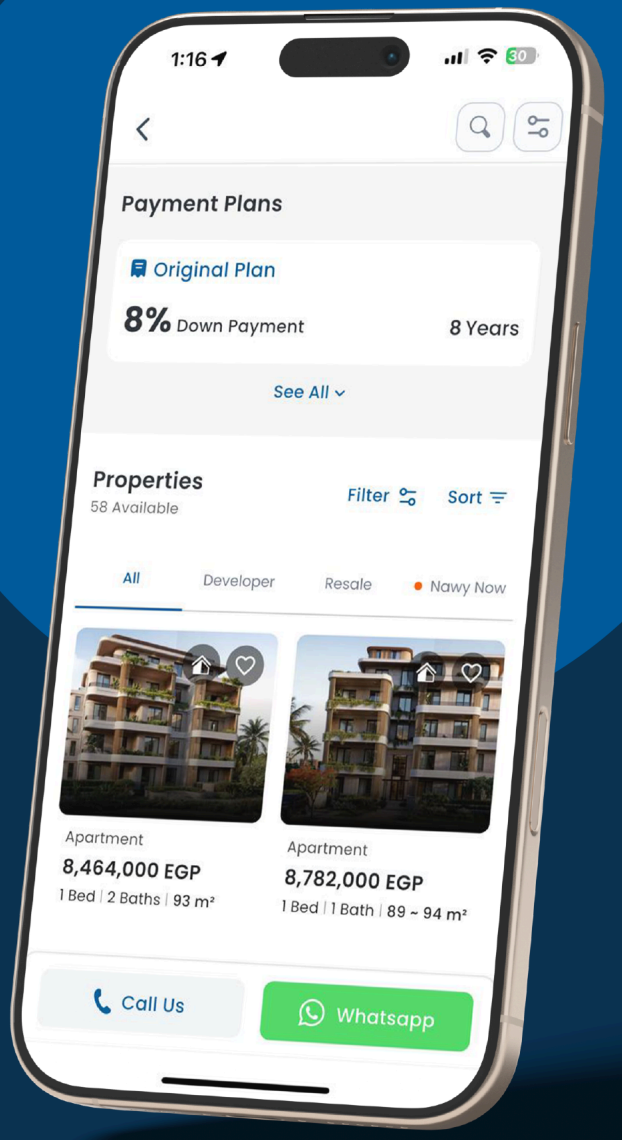

Park 227 is located within Haptown Compound in Mostakbal City, the eastern extension to New Cairo. Thanks to this strategic location, the compound and its phases are:
